

ARMABEX

ASESORES REGISTRADOS

Welcome to our website

Authorised in 2008 as Nominated Advisor, Armabex Asesores Registrados has become a leading advisor for the design, structuring and incorporation of SOCIMI as well as their listing on the MAB.

The Nominated Advisor is a mandatory figure in every MAB listing project. As a Nominated Advisor, Armabex is regulated and supervised by the CNMV and Bolsas y Mercados Españoles.

Madrid-based, our seasoned and highly dedicated team provides advisory and execution services to domestic and international Real Estate Asset Managers across Europe, Latin America, the Middle East and the United States.

Our customers are our partners, and our common interest is to help them to grow and build a sustainable relationship in which their success is also a source of pride for us.

As an independent regulated advisor, we guarantee that regulatory requirements are complied with, the interests of the project sponsors are always protected, and administrative functions are duly performed while assuring our clients of the quality of services offered.

We fully understand the needs of international real estate asset managers looking for a trusted partner in Spain that can provide all the services required to implement a project allowing them to focus on their core business.

In this perspective, Armabex offers a wide range of services that allow Socimi Management Companies to concentrate on their real core business, and reliably outsource single processes or complete administrative areas (Full Outsourcing).
